## INTERNSHIP & TRAINING

- **Mahajan Computers,Kurukshetra**  
Duration : 6 Weeks[Summer 2013]  
Language : C Language
- **Sysinfocom,Sector-34, Chandigarh**  
Duration : 6 Week[Summer 2014]  
Project : Lock Your Boot  
Front-End : RHEL LINUX  
Back-End : LINUX

As project's name "**LOCK YOUR BOOT**" indicates that it is related to locking the boot of our system(PC/laptop). It describes how to provide security to our Personal Computer or Laptop by locking the boot through a USB drive in LINUX so that without having that USB drive no one can even start your system and even after attaching the USB drive to the system, it demands for a password which is only known to the admin of the system which provides a very high security to your system.

- **Infowiz,Sec-34,Chandigarh**
